Experience

Frontend development
2021-2022

I have a solid foundation in web development, with experience in creating responsive and user-friendly websites. I excel in HTML, CSS, JavaScript, and have a keen eye for design aesthetics.

Video Editing
2020-2022

I'm skilled in Adobe After Effects and KineMaster, proficiently using them to craft visually stunning and engaging videos. My expertise includes animation, effects, and precise editing for a polished final product.

Web Designing
2023

I excel in web design, using tools like Figma, Adobe XD, Illustrator, and Photoshop to create aesthetically pleasing and functional websites. With a keen eye for detail, I ensure designs are not only visually appealing but also user-centered and responsive.
